BE SURE OF GOOD DUCK HUNTING AND FISHING

A pair of
Mallards
Coming In.

Good hunting or good fishing is no longer a gift of the gods. The plain and simple fact is that you find abundance of game or fish where there is sound and constructive food and cover propagation work being done.

WILD DUCKS MUST EAT

Wild Ducks have a telescopic vision plus a good sense of reasoning. Natural food is visible to them from considerable distances above.

Plant natural Wild Duck Food this spring or early summer and enjoy some good shooting next fall. Several kinds will produce a variety of foods, thus entice more Wild Ducks and they will remain for a longer visit.

Here are some of the best duck coaxers for planting. Mail your order at once. We will acknowledge same and send complete planting instructions.
